

TEACHING IN THE DIGITAL AGE

SMART TOOLS FOR AGE 3 TO GRADE 3

BRIAN PUERLING

Explore the many ways technology can enhance your classroom's complete curriculum and assessment. The use of technology is the new normal in many classrooms, and *Teaching in the Digital Age* will help you bring digital cameras, video, the Internet, and multi-touch mobile devices into your classroom and provide children with skills they need to know as they grow and learn. Tips for using these tools are included, as well as learning activities, worksheets, resources, and a framework to plan, evaluate, and reflect upon children's learning experiences. These strategies reflect *Technology in Early Childhood Programs*, the joint position statement of the National Association for the Education of Young Children and the Fred Rogers Center for Early Learning and Children's Media at Saint Vincent College.

Available May, 2012.
